## What is euroVAT?

---

The module euroVAT allows you to automatic review of the VAT identification number. The review takes place when changing the "Tax / VAT number" field within Magento. It does not matter whether this field is modified by the customer.

## Features

---

- Direct verification of the VAT-ID and assign the desired customer group
- Country-specific assignment of user groups
- Qualified query (company, city) on bff-online.de German shop owner
- assignment of a specific user group for buyers from their own country

## License

---

The extension is available as a purchasable euroVAT extension. For each Magento-installation, is pay license costs. Contain no matter how many store-views in a single installation. Please enter the URL you use to log into the backend system.

## Prerequisites

---

- euroVAT requires from the Magento-Version 1.4.
- Adobe Flash is required (Backend).

## Installation

---

After buying an Extension, they will find in the "My Account" menu items "My Order" and "My Download article".

After the complete Order, they see their license-key and download-key for the direct loading of the extension from the Magento Version 1.5.2, within the order.

Since Version 1.5.0.1 you can easily install the extension in the Magento-Connect-Manager. Open the Manager and must enter the Installation-URL (see order) one.

## Magento Version from 1.5.0.1

---

**Install New Extensions**

- 1 Search for modules via [Magento Connect](#).
- 2 Paste extension key to install:

Extension dependencies

Channel	Package Name	Version	Status
snm-portal	snm_pdf+b79e986ee6d3e2ce4084e067c2cf863d	1.5.2 (stable)	Ready to install

By clicking on the button "Install" to access the extension dependencies (gray table). If you receive an error message, so it may be that you allow a sufficient connection server, the server from snm-portal is not reachable (please press the button several times on "install") or you have it already installed on another installation of the extension.

Finish the installation by clicking on the button "Proceed", then the extension is installed. If you have difficulties, they can also install the extension as described in 1.4.2. for further installations, they should install their new Magento-Downloader.

## Magento Version 1.4.2

---

Download the extension from their user area "Download my article." Unpack the archive and copy the files to their 1:1 Magento-Installation. This was to allow the "app folder" will be integrated into the "app folder" its installation. This will overwrite any files. Please delete it after copying the Magento-Cache and login again.

## Finishing Installation

---

Open the backend area of Magento the menu [System>Configuration>SNM-Portal> PDF Print-outs] and write under the License your key, these can be found in your order.

## Preconditions

---

### Enabling TAX / VAT field

---
